SCHEDULING

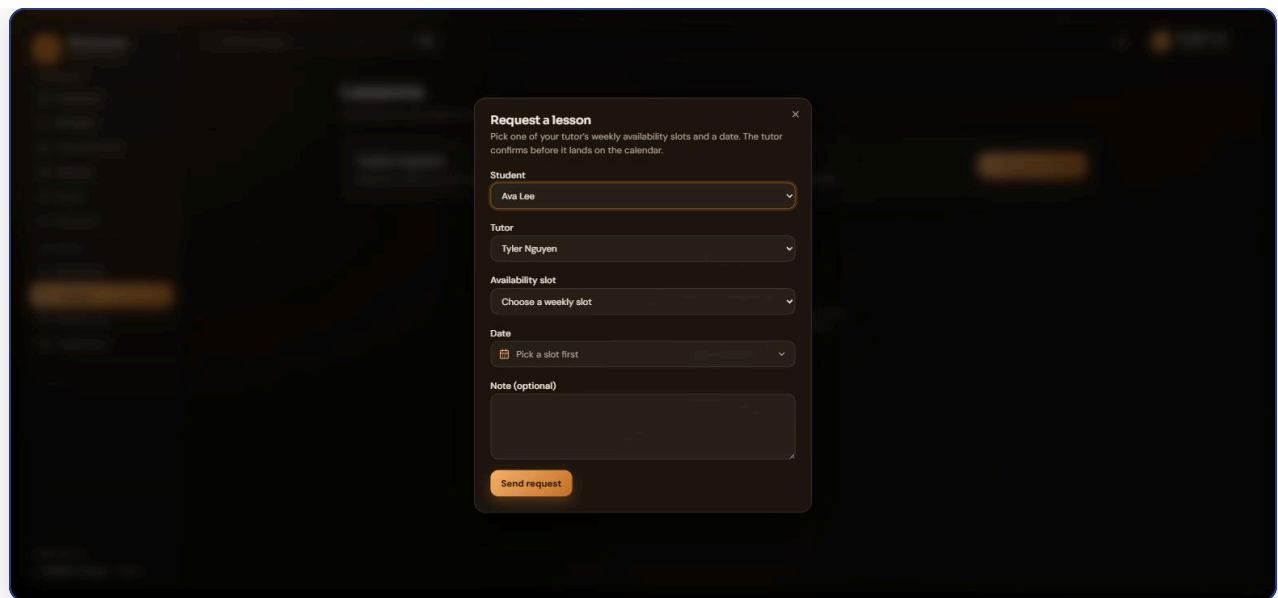

Request Lessons

Once a student is approved and matched with a tutor, the [Lessons](#) page is where scheduling happens.

THE LESSONS PAGE: YOUR SCHEDULE PLUS THE REQUEST A LESSON BUTTON

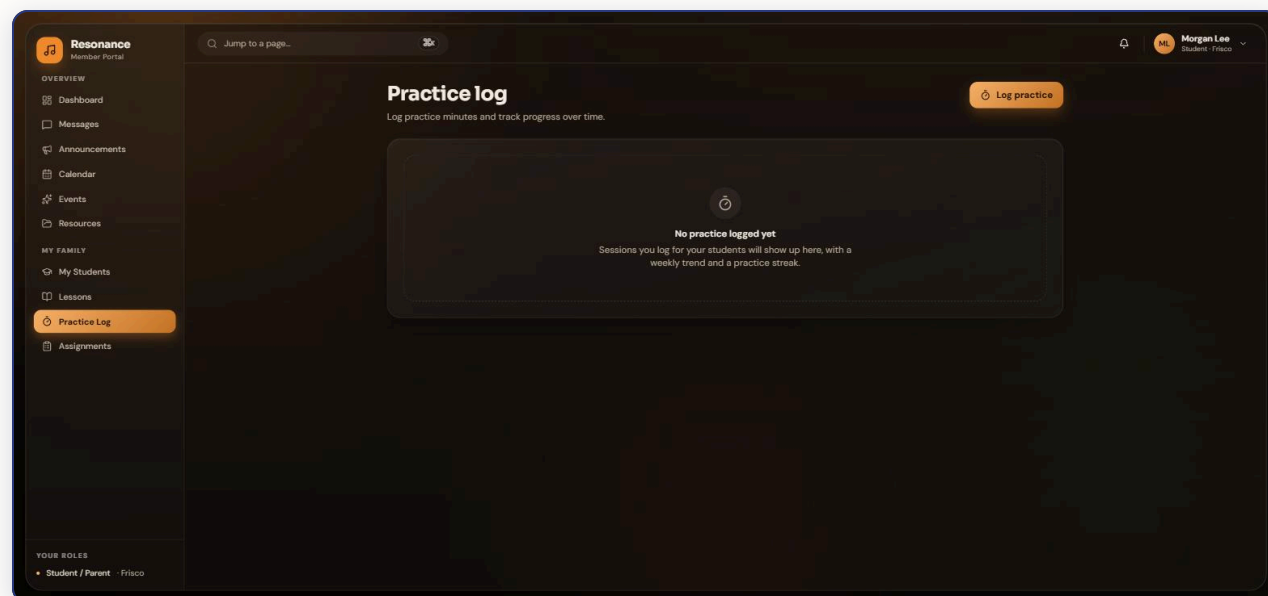

- 1 Click **Request a lesson**.
- 2 Pick your student, their tutor, one of the tutor's weekly availability slots, and the date you want.
- 3 Add a note if there is anything the tutor should know, and send the request.
- 4 The tutor confirms, and the lesson lands on your calendar. If a time stops working, cancel the pending request or message the tutor to rearrange.

REQUESTING A LESSON FROM THE TUTOR'S REAL AVAILABILITY

Practice and Assignments

Two small habits make lessons dramatically better: logging practice and checking assignments.

THE PRACTICE LOG TRACKS MINUTES, TRENDS, AND STREAKS

- **Practice Log:** tap Log practice after your child plays and record the minutes and what they worked on. Their tutor sees it and shapes the next lesson around it, and students love watching their streak grow.
- **Assignments:** homework the tutor leaves after each lesson shows up here instantly, so nothing gets lost between sessions.

Everything else in your sidebar

- **Messages** reaches your child's tutor and chapter staff directly. Keep lesson coordination in the portal so there is always a record, and skip trading personal numbers.
- **Calendar** shows lessons and chapter events in one view.
- **Events** lists recitals and community performances. RSVP when your family plans to come; organizers count on it.
- **Announcements and Resources** carry chapter news and useful files like the practice log template. Important updates also arrive by email.

SAFETY

Portal messages involving students can be reviewed by chapter leadership when there is a concern. It is one of the ways we keep every conversation appropriate and every student safe.
